TapNGoRFID.com

Founded by 25-year-old veteran Price Chopper Wristbands, Tap N Go™ is the product of an unwavering commitment to innovation in a rapidly changing market. Born out of the same passion for growth and foresight, Tap N Go's software platform is precise, easy to use and empowers our clients to improve and revolutionize their businesses in unique and exciting ways.

Specializing in technology for **Cashless Transactions**, our tried and tested system replaces inaccurate and tedious ticket counting, eliminates cash discrepancies and human error, while providing our clients with real time granular details and reporting.

What makes us the most unique is that our platform runs SEAMLESSLY with or without Wifi connectivity. Our talented and experienced development team is dedicated to refining and tailoring our platform to meet the specific needs of our clients. Our hardware partners continue to prove that no project is too challenging with the right mix of technology, vision and consistency.

With an impressive and successful track record of over 1,000 events worldwide, Senior management is closely and willingly involved with all major clients. Our long lasting and collaborative relationships are built on the highest levels of confidence and trust.

Are YOU ready to Tap N Go™?
Let us help you to get
it right the first time!

Shara Pathak, President
